Meet Dr. Weinstein

Welcome to Acculine Orthodontics. Our goal is to provide the most effective up to date means of correcting your individual orthodontic problem in a positive, warm, comfortable and personal environment.

Dr. Weinstein is a dental graduate of Harvard University, School of Dental Medicine. He went on to earn a master's degree in Biomedical Science along with a specialty certificate in Orthodontics from the University of Medicine and Dentistry of New Jersey. He is also Board Certified by the American Board of Orthodontists.

Dr. Weinstein has been featured in the *Asbury Park Press* newspaper for his work with children and adults with Invisalign. He was also selected as one of the Top Orthodontists in New Jersey by his peers in *New Jersey Monthly* magazine.

Personally committed to education, Dr Weinstein is an active faculty member at the Albert Einstein Orthodontic Program and teaches other dentists and orthodontists about the latest advancements in the field of orthodontics. In addition, he actively researches and publishes articles in the leading orthodontic journals, and is the inventor of orthodontic pliers, for which he has received a US patent.

Dr. Weinstein is active in his community as a volunteer bike marshal and kayak safety guide for events throughout the New York and New Jersey area. He lives in Monmouth County with his wife and three children. They enjoy reading, hiking, kayaking, camping and skiing.

Smiles for All Ages -

Children

Age 7 and up can often achieve significant benefit from interceptive treatment during their active growth phase, especially when jaw irregularities, crossbites, underbites and harmful habits are present.

Comprehensive treatment is generally begun before all permanent teeth are in place usually at ages 10 or 11. This allows Dr. Weinstein to guide the teeth into the most ideal position and greatly reduces the need for extractions.

Adults

As treatment has become more comfortable and less noticeable, adults are now seeking treatment more than ever before. Dr. Weinstein will listen to your concerns and design a treatment plan that will allow you to have the smile you always wanted.

Your First Visit

We are always excited about meeting new patients. This important 30-minute visit will consist of a thorough orthodontic examination, a discussion of potential treatment options, details on the treatment fee and our flexible payment arrangements. Dr. Weinstein will make sure that your visit is productive and that no questions go unanswered.

The Latest in Technology -

At Acculine Orthodontics we can achieve excellent orthodontic results **with** or **without braces!** Let Dr. Weinstein discuss with you which treatment options would be best.

- **Mini Metal & Clear Ceramic Braces:** Advanced technology in wires and brackets make treatment much more comfortable, less visible and with shorter treatment time than years ago.
- **Incognito/Lingual Braces:** Incognito braces are placed behind your teeth so no one will know that you are wearing braces unless you tell them. These unique braces are created using state-of-the-art technology and are 100% customized to the shape of your teeth and to your dental situation.
- **Invisalign™:** We can create a beautiful smile through a series of clear, thin, plastic "aligners" customized by Dr. Weinstein's expertise with breakthrough 3-D computer technology.
- **Invisalign™ Teen:** The same exciting technology as traditional Invisalign, but custom designed to accommodate growing mouths and the dental needs of teenagers.

Acculine Orthodontics Makes Your New Smile Affordable:

Your financial investment in orthodontic treatment is a smart investment that lasts a lifetime. Dr. Weinstein offers a variety of flexible financing options that make getting started on your beautiful new smile affordable. His staff will also assist you in determining your insurance benefits.
